

Custo Cases

Custom Sizes from Standard Designs - No Design Charges!

Our extensive range of standard enclosure designs can be quickly modified to your exact sizes and requirements. Additional customisation options include cut-outs, PCB mounting pillars, recesses and various standard materials and colours that can be incorporated without design charges.

7540 Series - Surface Mount Boxes

Flanged base enclosures with screw fixed lid. Flanges are incorporated into the base box for surface mounting. Flanges can be added to the lid instead if required.

7510 Series - Snap Together Enclosures

2 u-shape snap-together enclosures without fixing screws. A PCB can be clipped into the base shell without the need for PCB mounting screws. The base and cover can be different colours.

7550 Series - End Panel Enclosures

4 part snap-together enclosures with removable end panels. Ideal for housing PCBs with components protruding from two or more sides. End panels, base and cover can all be different colours.

7520 Series - Wall Mount Enclosures

2 u-shape snap-together flanged enclosures without fixing screws. Flanges are incorporated into the base shell for surface mounting. The base and cover can be different colours.

7560 Series - Flanged Base Enclosures

4 part snap-together enclosures with flanged base and removable end panels. End panels, base and cover can all be different colours.

7530 Series - Base and Lid Enclosures

Base box enclosures with screw fixed lid. Brass inserts are fitted to the lid for maximum internal capacity of the base box.

7570 Series - Curve Style Enclosures

4 part snap-together enclosures with curved feature and removable end panels. End panels, base and cover can all be different colours.
