

CamdenBoss Products – REACH Statement – QMS016

The REACH (Registration Evaluation and Authorisation of Chemicals) European regulation came into effect on 1st June 2007. Its purpose is to regulate the use of chemical substances within the EU, and particularly those substances of very high concern (SVHC's). CamdenBoss Ltd is fully aware of the legislation and the projected timetable for compliance with its obligations.

We are committed to meeting our obligations under REACH as a manufacturer, importer and distributor of articles. We have communicated with our upstream suppliers and to the best of our knowledge none of the substances classified as SVHC's are contained within any of the products sold by CamdenBoss Ltd. Furthermore, all products manufactured, imported, distributed or sold by CamdenBoss Ltd are classified as "Articles" within the REACH regulations. None of our products contain substances intended to be released under normal or foreseeable conditions of use, and therefore at the present time CamdenBoss Ltd is exempt from any requirement to register under REACH regulations

Should you require any further information concerning CamdenBoss implementation of REACH, please do not hesitate to contact us.

Yours Sincerely,

Graham Davies, Global Technical and Sourcing Manager

CAMDENBOSS Ltd.
