1500 SERIES
WALL & ⌐CORNER
MOUNTED ENCLOSURE

MULTIPLE SOLUTIONS

- You have the flexibility for mounting in 90° corners for wide coverage or even 45° angles for desks or scanners.

- Easily customisable on each face with CNC cutouts or digital printing to meet your connectivity and branding needs.

- Available in three colours: black, grey, and white with options for a solid or vented body.
SLEEK & SIMPLE

- Moulded from UL94-V0 ABS with a sleek and modern aesthetic.

- Simply secure the lid with a single screw whilst still meeting the requirements of EN60950.

- Recessed lid allows for simple customisation and the addition of touch pads, displays, and overlays.

1500 SERIES

ENCLOSURE FOR SMART SYSTEMS

VERSATILE INTERIOR

- Multi-level PCB mounting options with 8 pillars in the base and 8 in the lid to accomodate a variety of PCBs.

- Designed for use in sensor and access applications with multiple PCB footprints, including for Raspberry Pi.

- Large and spacious interior for Pi HATS or components and PCBs that require ample internal space.

WALL MOUNTING BRACKET

- Optional accessory available in the same colours as the enclosure: black, grey, and white.

- Achieve 90° corner mounting and 45° angle mounting on any surface with ease.

- Simple slide and lock mechanism with a security screw hole for protection against theft.
